Aim of the Programme

The primary aim of this two-day conference is to explore the transformative role of science and technology in addressing societal challenges related to **healthcare delivery, preservation of cultural heritage, and sustainable innovation**. It seeks to provide a multidisciplinary platform for academicians, researchers, industry experts, healthcare professionals, and social innovators to share knowledge, exchange ideas, and promote science-driven solutions for inclusive social development.

Objectives of the Programme

- ☐ To highlight the role of science and technology in improving public health and healthcare accessibility, with emphasis on affordable, innovative, and community-centric solutions.
- ☐ To promote scientific approaches for the conservation, preservation, and digital documentation of cultural and natural heritage, integrating traditional knowledge with modern technologies.
- ☐ To encourage innovation and entrepreneurship that address real-world societal problems through sustainable and socially responsible technologies.
- ☐ To foster interdisciplinary collaboration among scientists, engineers, pharmacists, social scientists, and policymakers for holistic social transformation.
- ☐ To create awareness about national and global initiatives aligned with Sustainable Development Goals (SDGs), particularly health, innovation, and heritage conservation.
- ☐ To provide a platform for young researchers and students to present their work and interact with experts in emerging areas of science for society.
