<b>Sl. No.</b>	<b>Items required with justification and rate</b>	<b>Total Expenditure (A) (₹)</b>
1.	Honorarium to Resource Persons/ Experts	We are expecting 8 national resource persons, and remuneration will be @3,000. In addition, we expect two international resource persons to give an invited talk in virtual mode. Also the remuneration will be @5,000. So total expenditure in this head is Rs. 34,000/-
2.	Study materials, Consumables expenses	This contains the printing of the book of abstracts and conference kit for the participants. We are expecting around 200 participants, including faculty, postdoctoral scholars, PhD scholars & UG-PG students. An estimated cost for this purpose is @250/- and consequently, the total estimated cost under this head is Rs. 50,000/-
3.	Hall rent, if any	Nil
4.	Publicity materials	The costs for Brochure printing and its circulation in other colleges, flex printing etc is estimated as Rs. 10,000/-
5.	Travel expenses	Require a small vehicle for three days (Conference days and the day before the conference date) for local travelling. Thus total expenditure in this head is proposed as @ Rs. 5000/- for three days i.e. total Rs. 15,000/-
6.	T.A. to the external Resource Persons/ Experts	Among proposed 8 national resource persons, four persons are considered within our state and rest four from other state. As our college is in interior location so TA for resource persons from West Bengal has been estimated @4,000/- and the same from outside West Bengal has been estimated @8,000/-. So total estimated cost in this head is Rs. 48,000/-
7.	Documentation expenses including audio-visual	We are planning to do some parallel sessions. Therefore, Audio visual recording cost is estimated Rs. 10,000/- per day. Hence we need a sum of Rs. 20,000/- in this head.
8.	Light refreshments	Estimated cost for light refreshment, including tea, water and lunch is Rs. 200/- per head. As the expected number of participants is around 200, the estimated cost for refreshment for the participants is Rs. 40,000/-. Hence we are claiming a sum of Rs. 45,000 for refreshment purpose including Rs. 5,000/- for refreshment purpose for the resource persons.
9.	Auditors' fee	3,000/-
10.	Other expenses, if any (please specify) i) Accommodation ii) Certificate Printing iii) Model exhibition and live experiment	Accommodation cost for some resource person during the conference is estimated as Rs. 10,000/- Cost for certificate printing is estimated as Rs. 5,000/- There will be a session (morning session of second day) where the students would do Model exhibition and live experiment. The students who would participate in this program would get financial assistance to purchase the required items for doing exhibition/experiment. Hence a sum of Rs. 20,000/- is estimated in this purpose.
<b>Grand Total Expenditure (₹)</b>		2,60,000/-

***Aims, Objectives and Details of the Programme***

***AIMS***

- Now-a-days very few students are interested in studying science subjects especially in undergraduate level. Artificial Intelligence (AI) is an emerging tool for everyone in present and near future societies. Therefore, the proposed program is aimed to popularize the students in science.
- The propose program is aimed to display how AI can be implemented in various disciplines of science which includes Physics, Chemistry, Zoology, Physiology and Mathematics.
- The current students of the college would get interactions with experts from the different disciplines. In addition to that the present students from our institute would able to interact with faculties, post-doc fellows and research scholars to get a good view about the present research.

Moreover, the students would get a good exposures to boost up their confidence in next level about engagement of research work.

- With the aim of '**Science Popularization Programme**', a session would be dedicated for exhibition of models and live experiments by the students of the institute in the second day of the program in the consequence of celebration of National Science Day.

## **OBJECTIVES**

- To realize the present undergraduate students about the use of various AI related tools and their applicability in different fields.
- To establish a platform for budding researchers, as well as faculty members and students, and to establish interactions among them.
- To utilize interactions among researchers to get feedback for the development of software tools.
- To represent the correlation between quantitative study and qualitative study.
- To enhance understanding of how various branches of STEM subjects uses AI and to encourage interdisciplinary studies.
- To involve students from humanities background (as more than 80% students from are from Arts background) in dealing with AI.

## **Details of the program**

**Participants details:** Total number of expected participants for the proposed program is 200. We expect around 150 UG and PG students participants from our college and surrounding degree and engineering colleges from Science, Engineering and Mathematics. Moreover, we expect around 50 faculties and research scholars to attend and present their research work in this platform. There will be a provision for online presentations to the faculties and research scholars who would unable to attend the program physically. This program would certainly help the faculties from various colleges and universities in their CAS.

**Resource Persons Details:** We expect a sum of 10 resource persons to deliver their invited talks on the topic. Among these resource persons, we expect 4 from within the state, four from outside the state and two from abroad. We would try to organize the program in such a way that the resource persons from India (both within and outside state) would deliver their lectures physically and interact with participants with the objectives of popularizing science. However, the international speakers would deliver their lectures and interact with participants in virtual platform. It is to be mentioned that we have approached to those eminent faculties/scientists as resource person who are not only expert of their own field but also have done some significant works using AI in different topics of Mathematics, Physics, Chemistry, Biological Science, Engineering etc. Therefore, the domain of the resource persons would be Physics, Chemistry, Applied Mathematics, Data science, statistics, Soft Computing, Biological Science, Computer science etc.

**Program Duration with details:** The proposed program is scheduled for two days (11.03.2026 and 12.03.2026). We have planned **seven** number of technical sessions including two technical sessions in online mode. Also due to the time constraints, some technical sessions are to be held parallel. In addition to these technical sessions there will be one inaugural session (1<sup>st</sup> Day), one parallel session in

consequence of celebration of science day celebration (which is an annual event in the college) where there will be model exhibition and live experiments by the students from different disciplines in the morning session of the second day and a valedictory session in the late afternoon session of the second day (details of the program schedule has been given in Annexure B).

## **Sub Themes**

- AI and ML in Physics
- AI and ML in Chemistry
- AI in Healthcare
- AI in Zoology
- LLM and its applications
- Soft computing and its applications in real world
- AI in Engineering and Technology
- AI in Education and Humanities
- Recent trends in research on Science, Technology, Engineering and Mathematics fields.

## **Proposed Outcomes**

- Students would get a flavour on R&D in particular to the field of application of AI. This platform would certainly provide a huge exposures to the deserving students among the rural areas.
- This conference under the theme ‘Science Popularization Programme’ would enhance the scientific concepts and knowledge not only the students from science background but also from other disciplines including commerce and humanities.
- In cope with NEP 2020, this program would promote on interdisciplinary research.
- The faculties who present their research outcomes in this conference would get benefit in career advancement scheme.
- Our plan is to continue the program annually for each coming year (that’s why we use the phrase ‘1st’ in the name of the conference) and extend the theme from STEM to STEAM (Science-Technology-Engineering-Arts-Mathematics).

Dear Dr. Mondal,

Thank you the invitation. I will be happy to present my work and interact with the students and the faculty members. I must admit this is very good initiative to organize such a conference in colleges to encourage young students.

I am looking for seeing you soon.

Best regards,  
Aman
